THE RIBHU STORY

Ribhu was founded in Bangalore with a clear realization: talent is universal, but opportunity is not. We didn't want to build just another NGO; we wanted to build a professional ecosystem.

We started Ribhu to bridge the gap between traditional craftsmanship and the modern corporate world. By focusing on high-quality, handmade gifting, we've created a model where social impact isn't a byproduct—it's the primary engine of our growth.

OUR MISSION

To foster self-sustainable livelihoods for individuals with disabilities—our Ribhus. We believe that true empowerment comes through agency and skill, not just aid. By choosing Ribhu, you aren't just buying a gift; you are investing in a sustainable future for our creators.
